partments and agencies.

Unfortunately, detailed and current manuals outlining functions of individual agencies and their subdivisions are rare. We have, therefore, also included in the present bibliography works of a more general scope that describe the history and often the legislative background of government agencies and bibliographies which may lead the researcher to other sources of information on governmental organization.

For some countries even the existence of an agency or a change in its name or organizational classification may be difficult to ascertain. Supplemental sources of information in such instances include official gazettes, national budgets, lists of corporate author headings, and, last but not least, city and telephone directories.

This bibliography is in many ways a followup and a supplement to *Government Publications: A Guide to Bibliographic Tools* (Washington, Library of Congress, 1975) which provides information on bibliographic control of government publications for 140 countries and 60 international intergovernmental organizations and includes entries for over 3,000 bibliographic works.

The first part of this bibliography includes basic works on public administration and governmental organization in general, manuals, handbooks, and yearbooks containing concise information on the organization of national governments worldwide or for certain geographic areas and a number of helpful bibliographies.

The second part lists individual countries in alphabetical order, citing organizational manuals, wherever available, and other publications containing general information on the governmental organization of each country. Selected retrospective sources, which provide information on past changes within individual governments, are also included.

The materials included in this bibliography have been selected mainly from the collections of the Library of Congress. Entries and call numbers are those used in the Library of Congress card catalog. In a few instances,

Research in governmental organization necessarily requires knowledge of the theory of public administration and of basic principles of governmental organization. The various forms of modern governmental systems and the lack of uniformity in administrative terminology further complicate the understanding of the organization of governments.

The following are a few works that may help the interested researcher:

1
Alderfer, Harold F. Public administration in newer nations. New York, Praeger [1967] 206 p. (Praeger special studies in international politics and public affairs) JF51.A56

2
Bibliographie de science administrative, 1967-1970. Paris, Centre de documentation, Sciences humaines [1972?] 222 p. (Collection Documentation) Z7164.A2B5
Beginning in 1971, kept up to date in *Bulletin signalétique 528: Science administrative*.

3
Dimock, Marshall E., and Gladys O. Dimock. Public administration. 4th ed. New York, Holt, Rinehart and Winston [1969] 634 p. JF1351.D5 1969
Deals extensively with U.S. governmental organization.

4
Gladden, Edgar N. An introduction to public administration. 4th ed. London, Staple Press, 1966. xxxv, 260 p. JF1351.G53 1966
Deals extensively with British governmental organization.

5
Hodgson, John S. Public administration. New York, McGraw-Hill [1969] 312 p. JF1351.H6
Deals mainly with Canadian governmental organization.

6
United Nations. *Public Administration Division*. United Nations directory of national agencies and institutions for the improvement of public administration. New York, 1970. 129 p. ([United Nations. Document] ST/TAO/M/47)

following series published in the United States, in the USSR, and in France. The U.S. Department of the Army occasionally issues, in its pamphlet series no. 550, the so-called area handbooks prepared by the Foreign Area Studies Division of the American University in Washington. In the USSR, the Gosudarstvennoe izdatel'stvo ðuridicheskoi literatury (State Publishing House of Legal Literature) issues manuals called *Gosudarstvennyĭ stroĭ . . .* (*Government Organization of . . .*) in its series *Gosudarstvennyĭ stroĭ stran mira* (Government organization in the countries of the world). In France, the series called "Comment ils sont gouvernés" (How they are governed), issued by Librairie générale de droit et de jurisprudence, presents data on governmental organization in individual countries. Some of these publications will be cited under respective countries where primary sources are not available or to supplement primary sources. For certain British Commonwealth countries or former British colonial possessions, the "Colonial annual reports," issued from 1946, and the numbered "Colonial reports-annual," issued before 1940, will be of assistance for retrospective administrative organization.

Generally, current or recent manuals will be listed first, followed by retrospective manuals and other sources of information.
